Figure 1 is a line graph showing the temperature profile of the sample during the experiment. The y-axis represents Temperature (°C) from 0 to 300, and the x-axis represents Time (sec) from 0 to 220. The curve shows a slow rise from 20s to 120s (labeled 86 ~ 100 sec), a sharp rise to a peak of 255 ± 5 °C at 135s, a dwell at the peak for 5 ± 0.5 sec, and then a gradual decay.
